

A-CAMP BEE

Ohhhhh, we're halfway there

Hey grasshoppers! I hope you're having a great camp day today! We have a really great schedule lined up for you all today and we hope you enjoy it. Remember to take care of yourselves. Wash your hands a lot, drink more water than you think you need, and take as many moments to yourself as you need. We love you and want you safe and cared for.

Talent Spotlight: Lauren Morelli

If you could lead a workshop in something you're passionate about but not a professional in, what would it be?

Knitting, I think? It's the only thing that makes me feel like I have a practical skill. I made a sweater for myself. I really love it a lot, and I'm passionate about spreading it. It's also super meditative as a neurotic person, it's something I can sit and do quietly. All you have to do is put the needles through the yarn.

HEY THERE MYSTERY SOLVERS

Thankfully our bandit left their vegan badge as they ran away with their bounty! But there are so many vegans on the mountain. Did you see the line at dinner last night?! A little birdy told me that Heather Hogan knows more than she is saying, go ask her for a clue! The first person to figure it out gets a prize. Find Hansen or Chelsey and tell us the answer and you could win!

What is something that is always in your fridge?

Not much these days. This is super embarrassing. Probably some cheese. Always have some cheese. And I always have a bottle of wine. Oh, and I always have sweet vermouth because I make manhattans.

What would you do if you were making out with someone at camp and then a bear came?

I'd be really pissed at the bear. I'd be like, "What are you doing, messing up my make out?" And then I feel like I would try to appear really brave and maybe protect whomever it was I was making out with. And then later, need to wash my jeans because I had actually peed myself.

What was your first impression of camp?

It's a pretty amazing place. It's really amazing. That being said, I've never been around this many queer people at once. I'm super overwhelmed, and also, everyone else appears like very chill and comfortable. I feel like I'm at a middle school dance, and I'm like, "I don't.. what do I? Do I talk? I'm going to stare at the carpet. Staring at the carpet is like the only way to get through this."

MountainTOP Sex Positions:

The "That Corner Was, In Retrospect, Not As Dark As We Thought It Was"

by Carolyn

Have sex in a corner or out of doors. The next evening, well after dusk, walk past that same corner or spot. Realize that with the light just so and the shadows just so you and the way the wind is moving the trees, you might as well have fucked under a spotlight. Think, this explains breakfast. Go back later, alone, to retrieve your underwear.

People who menstruate are not automatically better witches than people who don't. Any witch who tries to tell trans witches that the Earth and Moon and Ghosts and Spirits care one tiny bit about the Western gender binary clearly don't know what they're talking about. A witch is a witch no matter what a doctor thought she was when she was born.

! BABE ALERT! BABE ALERT! BABE ALERT!

Babes have been spotted in the area. Protect yourself with these tips:

- If you encounter a babe, do not run.
- Avoid direct eye contact.
- Walk away slowly if the babe is not approaching.
- If the babe charges, stand your ground. (You cannot outrun it.)
- Don't scream or yell. Speak in a soft monotone voice and wave your arms to let the babe know you are human. If you have pepper spray, prepare to use it.
- If the babe charges to within 25 feet of where you're standing, use the spray.
- If the babe makes contact, curl up into a ball on your side or lie flat on your stomach.
- Try not to panic; remain as quiet as possible until the encounter ends.
- While in babe country, be aware that you may encounter a babe at any time.
- Be sure the babe has left the area before getting up to seek help.

Homoscopes with Hansen

Aries: I said to the sun, "Tell me about the big bang." The sun said, "it hurts to become."

Taurus: The night when you kissed me, I left a poem in your mouth, and you can hear some of the lines every time you breathe out.

Gemini: Forests may be gorgeous but there is nothing more alive than a tree that learns how to grow in a cemetery.

Cancer: To think, a sweater is made entirely of knots. My stomach could clothe a village.

Leo: Our hearts beat so loud the neighbors think we're fucking when I'm just trying to find the nerve to touch your face.

Virgo: We all have different reasons for forgetting to breathe.

Libra: You have a heart of gold and I am kneeling in your bloodstream panning for the only thing that has ever felt like home.

Scorpio: My mouth is a fire escape. The words coming out don't care that they are naked. There is something burning in here.

Sagittarius: You have to understand when it hurt to love her, it hurt the way the light hurts your eyes in the middle of the night, but I had to see.

Capricorn: You are a mystery I promise I will never try to solve.

Aquarius: Everything but "I LOVE YOU" is small talk.

Pisces: Remember, you didn't come here to write your heart out. You came to write it in.
